Amendment to Spare Parts Catalog

REFERRED TO ISSUE N° 1251

OF THE 3/1967

IMPORTANT NOTE

This Amendment contains all the revisions issued up to date of the Amendment itself and related to the car and the publication mentioned above. Each Amendment cancels and replaces the immediately preceding one in numerical order.

Therefore to order parts, it is sufficient to have at disposal the basic issue of the Catalogue and the last Amendment: by examining both publications it is possible to have all the information needed to individuate the parts exactly.

The index overleaf shows the tables which, in each Amendment, have been revised; the entries marked with * on the tables refer to the items added to those entered in the preceding Amendments.

To bring the Catalogue up-to-date, enter the items contained in this Amendment.

If the Catalog has already been revised on the basis of the previous Amendments, it will be sufficient to enter only the items marked with *.

THE PRESENT AMENDMENT CANCELS AND REPLACES THE FOREGOING ONES
